COMMERCIAL AND MONEY MATTERS.

(For Commercial and Money Matters, see Last Page.)

THUBSDAY, P. M. The stock market was rather firmer to-day, and some of the fancies improved slightly; but, just before the Second Board, the street was thrown into a perfect ferment by the rumor that advices of a declaration of war by Mexico had been received from Vera Cruz via Havana and Charleston, and that the packet Rapid had been captured by the Montezuma. This ramor set the stock world all affect for a short time, but upon reflecting on the probabilities of the story, the effect passed away as rapidly as it arose. The excitement was as great, however, for a short time, as if news had arrived that the Montezuma had taken the Navy Yard, and that Mexican troops were on their victorious march up Broadway to storm the fountain in the Park. In the midst of all these startling rumors, and the dangerous position in which this country stands, risking aunihilation at the hands of the pulssant Mexicans, the cool-headed, sagacious gentlemen who preside over the nterests of the Insurance Companies in Wall-street, take all the risks they can get, and do not dream of inserting

The Philadelphia Ledger is of opinion that the August interest will be paid according the provisions of the Appropriation Bill, authorizing the next semi-annual payment of the State interest in full, by paying pro-rata to all claimants all the moneys in the Treasury on the 1st of August, and by checks on the Bank of Pennsylvania for the remainder due, not running more than 4 months. From the best information we can obtain, the amount in the Treasury on the 1st of August applicable to the payment of the erest will be not far from \$500,000. The present situation of the Treasury is worse than it would have been had he Tax Collectors been pressed to make payment into the Treasury of the funds in their hands. It is well known that Treasury of the funds in their hands. It is well known that considerable amounts are in the hands of these Collectors, which would have been paid into the Treasury had proper sacritions been made; and it is believed that this course has been adopted purposely, either to make the apparent poverty of the Treasury a ground for stock speculations, or to give an appearance of color to Gov. Shunk's expressed opinion, that the August interest could not be paid. The sales of Pennsylvania 5s at the Stock Board to-day reached \$150,000 at firm rates, mostly sold by the Great Bear.
